SUMMARY

Versatile Software Developer specializing in cross-platform development with React.js, Next.js, and React Native. Combines strong frontend expertise in TypeScript and Tailwind CSS with backend proficiency in Node.js and PostgreSQL. Skilled in the full product lifecycle from prototyping in Figma to deploying scalable applications on Vercel. committed to leveraging modern tools like Shadcn/ui and TanStack Query to create fast, dynamic, and accessible interfaces.

SKILLS

Frontend: HTML5, CSS3/SASS, Tailwind CSS, Javascript, Typescript, React.js, Next.js, React Native, Shadcn/ui, Storybook.js, Zustand, Tanstack Query

Backend & Database: Node.js, Express, Supabase, PostgreSQL, PrismaORM, Rest API

Design & Prototyping: Figma, Adobe Photoshop, Adobe illustrator, Balsamiq Wireframe,

Tools & Version Control: Git/Github, Vercel, npm/yarn

WORK EXPERIENCE

Frontend Developer

2024 june – 2025 june

Codebility, Philippines

- Built and maintained the layout, structure, and functionality of web and mobile applications based on product requirements and UI/UX design mockups using React, Next, and React Native.
- Developed dynamic, reusable UI components to improve scalability and maintainability, using Shadcn/ui and documenting components with Storybook
- Optimized front-end code to improve application performance and load times, contributing to a smoother user experience.
- Collaborated with back-end developers to integrate RESTful APIs and GraphQL, handling data fetching and client-side state management with TanStack Query and Zustand.
- Worked with Supabase, Prisma ORM, and PostgreSQL to support efficient data access and front-end/back-end data flow.
- Actively participated in an Agile development environment, collaborating with team members to deliver features on time.

Web Developer Intern

2018 jul - 2018 oct

Binary Digital, Ortigas

Pasig

- Created website mockups and wireframes using Balsamiq, translating UI/UX concepts into functional and visually consistent web pages. Assessed UI and UX designs for technical feasibility
- Assessed UI and UX designs for technical feasibility, ensuring smooth implementation across devices and browsers.
- Developed and maintained websites using PHP and CodeIgniter, including production support and bug fixes
- Implemented a mobile-first, responsive design approach using SASS/SCSS, ensuring compatibility across desktop and mobile devices.
- Integrated Kirby CMS to streamline content management workflows and improve content editing efficiency for non-technical users.
- Utilized Vagrant to maintain consistent local development environments across the team.
- Actively collaborated in an Agile development environment, working with designers and developers to deliver projects on time.

EDUCATION

Bachelor of Science in Information Technology Centro Escholar University of Malolos	2015 - 2019
